PREPARATION FOR EXTERMINATION OF SMALL ANTS

Kitchen:

Remove all items from under the kitchen sink, all lower cabinets, drawers and counter tops. If ants have been and/or seen in any upper cabinets, all items should be removed for treatment as well. Put all items on a kitchen table or a bed (up off the floor) and cover. Do NOT wash down cabinets after spraying.

Bathrooms:

Remove all items from under bathroom sink, put on a table or bed and cover. If ants are seen in any closets or cabinets, all items should be removed for treatment as well.

Living Space/Bedrooms:

All floor surfaces should be free of clothing, newspapers, toys, etc. (Clean up as if you were going to have company).

This is a residual spraying process.

OCCUPANTS AS WELL AS ANY DOMESTIC ANIMALS NEED TO BE OUT UNTIL THE PRODUCT IS COMPLETELY DRY (USUALLY 3 TO 4 HOURS). FISH TANKS HAVE TO BE UNPLUGGED AND COVERED UNTIL YOU RETURN. ADDITIONAL FEES COULD BE INCURRED IF WE NEED TO RETURN BECAUSE THIS WAS NOT DONE. FURTHERMORE WE WILL NOT BE RESPONSIBLE FOR ANY DAMAGE TO THE FISH TANKS THAT MIGHT BE INCURRED IF WE HAVE TO UNPLUG AND COVER THE FISH TANK.

BIRDS MUST BE OUT FOR 24 HOURS !!!!

*Thank you,
