

Flea Treatment RESIDENT PREPARATION SHEET

For our company to provide the most effective, safe service possible, we ask you to review and complete all the necessary steps listed below.

How To Prepare For The Service

BASEMENT, LIVING ROOM, BEDROOMS, ETC.

- Please make all of these areas accessible for our technician to treat, if applicable, by moving small items from floor surfaces and placing larger items together.
- Arrange to have your pet(s) treated for fleas before the premises are treated.
- Vacuum all rugs, carpet, and upholstered furniture. Special attention must be given to pet resting areas. Vacuum bag(s) should be discarded immediately upon completion.
- Mop all tile and vinyl floors; sweep or vacuum all floors that cannot be mopped.
- Remove, clean, launder or dispose of all pet bedding.
- Make as much of the floor space accessible by removing all small items from floor surfaces, this includes the bottom of closets and under beds.

Reminders Before & After The Treatment

- **DO NOT** use other pest control chemicals (powders or sprays) or cleaning products anywhere near bait placements or spray treatments, as this will decrease effectiveness.
- Avoid waxing or washing floor surfaces, especially the edges for at least three weeks after treatment, and do not steam clean carpets.
- Vacuum as usual, daily for the first week following the treatment.
- Expect to see adult fleas for up to 1 week following the treatment.
- Because the treatment works best when fleas sense vibrations in the room, try not to leave the home unoccupied for extended periods (1 to 2 weeks).
- When a spray is applied in your home, **you and your pets will be required to vacate for a 4-hour window** once the treatment begins. Upon re-entering, we recommend opening the windows for 20-30 minutes.
- Fish aquariums may be left onsite; however, must be covered, and air filters disconnected.
- Your technician will use a number of treatment methods depending on each unique situation. Please do not move or tamper with any traps, monitors or products applied.
