

Rodent Treatment

RESIDENT PREPARATION SHEET

For our company to provide the most effective, safe service possible, we ask you to review and complete all the necessary steps listed below.

Prep Checklist

- 🐭 **DO NOT** remove rodent dropping from any areas before the inspection, this will allow the technician to determine activity, population etc.
- 🐭 Empty only the kitchen cupboards and drawers of all dishes, pots, pans, cans, food, etc.
- 🐭 Remove any items from the top of the refrigerator and stove.
- 🐭 Clear out all items from your bathroom cabinets and drawers.
- 🐭 Remove any obstacles near or around the laundry machines or hot water heaters, if applicable.

Reminders Before & After The Treatment

- 🐭 **DO NOT** move any of the stations or traps.
- 🐭 **DO NOT** use any other rodent control products (this can work against our control measures).
- 🐭 Remove all competing food sources (this means keeping all pet foods in tightly sealed containers, cleaning up spills as they occur, removing the trash regularly, etc.).
- 🐭 Some of the products we may utilize during our treatment may contain allergens such as wheat, soy, peanuts, and shellfish. Alert your technician of any if allergens exist before the treatment.
- 🐭 You or your pets don't need to leave your home before, during, or after the treatment. However, children and pets must not be in the same room/area during the treatment.
- 🐭 Please be patient. Depending on the infestation level and species of rodent, effective control may take weeks.
- 🐭 Your technician will use a number of methods to control the pest depending on each unique situation. Please do not move or tamper with any traps, monitors or products applied by your technician.
- 🐭 Depending on the level of the rodent activity, follow up services may be required and will be coordinated by your Community or Property Manager with A&A Pest Control.
- 🐭 Typically, the first follow up service will occur approximately 2-3 weeks after the initial rodent service.
- 🐭 Contact your Community or Property Manager if further assistance is needed.
