

Stored Product Pest Treatment

RESIDENT PREPARATION SHEET

For our company to provide the most effective, safe service possible, we ask you to review and complete all the necessary steps listed below.

Prep Checklist

- 🐜 Empty out all kitchen cupboards and food pantries.
- 🐜 Empty all your kitchen drawers of cutlery, towels, etc.
- 🐜 Clean and clear off all your kitchen countertops.
- 🐜 Remove all items from the top of the refrigerator
- 🐜 Remove all food, dishes, pots, pans, cans, boxes, etc.
- 🐜 Please remove any competing food sources /spills from all areas listed above.
- 🐜 Ensure to keep all removed items within the kitchen area covered properly to prevent spread.
- 🐜 All dried food products, including pet food should be inspected for infestation. Infested foods should be disposed of or placed in a freezer for at least one week. Foods not infested should be placed in plastic containers with tight-fitting lids.
- 🐜 Notify the Technician of any infested dried food items and also pet food.

Reminders Before & After The Treatment

- 🐜 DO NOT self-treat before or after the service.
- 🐜 DO NOT use other pest control chemicals (powders or sprays) or cleaning products near areas that have been treated, as this will decrease the effectiveness of the treatments.
- 🐜 Remove all competing food sources (this means keeping all foods in tightly sealed containers, cleaning up spills as they occur, removing the trash on a regular basis, etc.).
- 🐜 You may place back all kitchen items after the re-entry time as advised by your technician.
- 🐜 When a spray is applied inside your residence, **you and your pets will be required to vacate the premises for a 4-hour window**. Your technician will advise you at the time of service or leave an information notice at your premises.
- 🐜 Fish aquariums may be left on-site. However, they should be covered, and air filters disconnected.
- 🐜 Your technician will use a number of methods to control the pest depending on each unique situation. Please do not move or tamper with any traps, monitors or products applied by your technician. The method of treatment will determine the required vacate time.
- 🐜 Depending on the level of activity, follow up services may be required and will be coordinated by your Community or Property Manager with A&A Pest Control. Contact your Community or Property Manager if further assistance is needed.
